

# JPMorgan UK Smaller Companies Investment Trust plc

## Fund overview

ISIN GB00BF7L8P11	Sedol BF7L8P1	Bloomberg JMI LN	Reuters JMI.L
----------------------	------------------	---------------------	------------------

**Objective:** Aims to provide capital growth from investing in UK smaller companies by outperformance of the Numis Smaller Companies plus AIM (excluding Investment Companies) Index. The Company will predominantly invest in quoted UK small companies from the Numis Smaller Companies plus AIM (excluding Investment Companies) Index and a rising share price over the longer term by taking carefully controlled risk. The Company has the ability to use borrowing to gear the portfolio within the range of 10% net cash to 15% geared in normal market conditions.

## Key risks

External factors may cause an entire asset class to decline in value. Prices and values of all shares or all bonds and income could decline at the same time, or fluctuate in response to the performance of individual companies and general market conditions.

This Company may utilise gearing (borrowing) which will exaggerate market movements both up and down.

This Company invests in smaller companies which may increase its risk profile.

The share price may trade at a discount to the Net Asset Value of the Company.

The single market in which the Company primarily invests, in this case the UK, may be subject to particular political and economic risks and, as a result, the Company may be more volatile than more broadly diversified Company's.

Companies listed on AIM tend to be smaller and early stage companies and may carry greater risks than an investment in a Company with a full listing on the London Stock Exchange.

### General Disclosures

Investment is subject to documentation. The Annual Reports and Financial Statements, AIFMD art. 23 Investor Disclosure Document and PRIIPs Key Information Document can be obtained free of charge in English from JPMorgan Funds Limited or [www.jpnam.co.uk/investmenttrust](http://www.jpnam.co.uk/investmenttrust).

This material should not be considered as advice or an investment recommendation. Company holdings and performance are likely to have changed since the report date. No provider of information presented here, including index and ratings information, is liable for damages or losses of any type arising from use of their information. No warranty of accuracy is given and no liability in respect of any error or omission is accepted.

To the extent permitted by applicable law, we may record telephone calls and monitor electronic communications to comply with our legal and regulatory obligations and internal policies. Personal data will be collected, stored and processed by J.P. Morgan Asset Management in accordance with our EMEA Privacy Policy [www.jpmorgan.com/emea-privacy-policy](http://www.jpmorgan.com/emea-privacy-policy)

Risk indicator Based on the Company volatility for the past 5 years. See the Key Information Document (KID) for details.

Ongoing charges are the management fee and all other operating expenses, excluding interest charges on any borrowing and any performance fee payable expressed as a percentage of the average daily net assets during the year. All the figures are for the previous financial year unless where indicated. For information on ongoing charges please refer to the Company's Annual Report and Accounts. [www.jpmsmallercompanies.co.uk](http://www.jpmsmallercompanies.co.uk)

Formerly JPMorgan Smaller Companies Investment Trust plc, the Trust name was changed on 21/09/21.

### Performance information

Source: J.P. Morgan Asset Management/Morningstar. Net asset value performance data has been calculated on a NAV to NAV basis, including ongoing charges and any applicable fees, with any income reinvested, in GBP.

NAV is the cum income NAV with debt at fair value, diluted for treasury and/or subscription shares if applicable, with any income reinvested. Share price performance figures are calculated on a mid market basis in GBP with income reinvested on the ex-dividend date. The performance of the company's portfolio, or NAV performance, is not the same as share price performance and shareholders may not realise returns which are the same as NAV performance.

Indices do not include fees or operating expenses and you cannot

invest in them.

Prospective dividend yield is for the investment trust's current financial year. It is indicative only and based on the latest month end mid-market price and the declared and net prospective dividends for the current financial year.

Prior to 01/01/19 the benchmark was FTSE Small Cap (ex Inv Companies) (£)

### Holdings information

Market Cap excludes cash.

### Information Sources

Company information, including performance calculations and other data, is provided by J.P. Morgan Asset Management (the marketing name for the asset management businesses of JPMorgan Chase & Co. and its affiliates worldwide).

All data is as at the document date unless indicated otherwise.

### Definitions

**FE Crown rating** are quantitative ratings ranging from one to five designed to help investors identify funds which have displayed superior performance in terms of stockpicking, consistency and risk control.

FE Crown Fund Ratings are however purely quantitative and backward looking, and, as such, cannot offer any certainty about the future.

FE Trustnet crown rating as at 30 June 2022.

**Benchmark comparison** Comparison of the Company's performance is made with the benchmark. The benchmark is a recognised index of stocks which should not be taken as wholly representative of the Company's investment universe. The Company's investment strategy does not follow or track this index and therefore there may be a degree of divergence between its performance and that of the Company.

**Gearing** Gearing represents the excess amount above shareholders' funds of total investments (excluding liquidity fund holdings) expressed as a percentage of the shareholders' funds. If the amount calculated is negative, this is known as a "net cash" position.

**Discount/Premium** If the share price of an investment company is lower than the net asset value (NAV) per share, the company is said to be trading at a discount. If the share price of an investment company is higher than the net asset value (NAV) per share, the company is said to be trading at a premium. The discount/premium is shown as a percentage of the NAV.

**NAV** The value of investment and cash, including current year revenue, less liabilities (prior charges such as loans, debenture stock and preference shares at fair value).

**Cash** A company's net exposure to cash / cash equivalents [includes investment in liquidity funds and treasury stocks if held] expressed as a percentage of shareholders funds after any offset against its gearing.
