## Fund overview

| ISIN | Valor | Bloomberg |
|---|---|---|
| LU0289735515 | 3007812 | JPIOIEI LX |

**Investment objective:** To achieve a return in excess of the benchmark by exploiting investment opportunities in, amongst others, the debt and currency markets, and using derivatives where appropriate.

**Investment approach**

- Uses an absolute return oriented approach to target uncorrelated, low volatility returns over the medium term regardless of market conditions.
- Flexibility to draw on diversified sources of returns across three distinct strategies: tactical rotation between traditional fixed income sectors, alternative strategies such as relative value trading, and hedging strategies.

## ESG information

**ESG approach - Integrated**
ESG Integration is the systematic inclusion of financially material ESG factors, alongside other relevant factors, in investment analysis and investment decisions with the goals of managing risk and improving long-term returns. ESG integration does not by itself change this product's investment objective, exclude specific types of companies or constrain its investable universe. This product is not designed for investors who are looking for a product that meets specific ESG goals or wish to screen out particular types of companies or investments, other than those required by any applicable law such as companies involved in the manufacture, production or supply of cluster munitions.

### Definitions

**NAV** Net Asset Value of a fund's assets less its liabilities per Share.
**Correlation** measures the strength and direction of the relationship between movements in fund and benchmark returns. A correlation of 1.00 indicates that fund and benchmark returns move in lockstep in the same direction.
**Annualised volatility (%)** measures the extent to which returns vary up and down over a given period.

**Sharpe ratio** performance of an investment adjusting for the amount of risk taken (compared a risk-free investment). The higher the Sharpe ratio the better the returns compared to the risk taken.
**Tracking error (%)** measures how much a fund's returns deviate from those of the benchmark. The lower the number the closer the fund's historic performance has followed its benchmark.

**Information ratio** measures if a manager is outperforming or underperforming the benchmark and accounts for the risk taken to achieve the returns. A manager who outperforms a benchmark by 2% p.a. will have a higher IR than a manager with the same outperformance but who takes more risk.
